EXPLORE MORE, RELAX MORE, . .

Ever since the establishment of our company we have been internationally praised for our camp equipment by overlanders, adventurers and explorers worldwide.

Passion and love for adventure, technical solutions and design have been the reason for the success of our products. We take the upmost care for detail and finish which can be seen at an instant.

We build and test every stove individually and by hand before it leaves our company in Zeeland, The Netherlands. We are constantly innovating and trying to evolve our equipment to the best possible extent. In this way we can maintain the highest level of quality and functionality that we demand from our products.

So please enjoy and make sure your cooking is as safe, fun and tasty as it should be.

No matter what level of adventure you want to embark on, our equipment is designed to last a lifetime and serve you no matter where you roam.

Enjoy your stove!

Hans & Hennie

Team Ducasto

The Dutch Outdoor Camp Stove can be used in a matter of seconds, transforming from a portable case into a 20" 2-burner propane outdoor camp stove with integrated windscreens.

It comes with adjustable feet to level the stove and has a quick coupling to attach the stainless steel braided gas hose with regulator to your LPG cylinder. Before you order you can choose between a gas connection on the left or right side of the stove.

The stove is made of high quality 5052 aluminum, a stainless steel grid with stainless steel burners and it can be easily taken apart for cleaning the case, grid and burners.

Almost all your standard pots and pans will fit on our camp stove. (Max. pan Ø approx. 27cm, 10.5").

Over all dimensions ±: W; 51,1cm (20.1"), H; 11,8cm, (4.7") D; 31,3cm (12.3")*
** Taking handle, locks and feet not in consideration*

Pan support dimensions ±: W; 50cm (19.7"), D; 30cm (11.8").

Weight ±; 5,5 Kg -12.13 lbs
